Gas-burner Backpackers Stove TKB-9209-1

**Equipment:**

This is an easy-to-handle, with convenient paws folding on one side. The low price for this model made the Backpackers Stove TKB-9209-1 burner one of the popular and affordable models among beginners.

Thanks to vertical slots, a powerful directional flame flow is formed in the head of the burner, which is hardly blown by the wind, and a sufficiently large diameter of the working surface of the burner provides comfort in cooking.
